

Dear Parents;

Thank you for your interest in Tri-Cities Prep! Here at Tri-Cities Prep we are dedicated to providing the highest quality academics, preparing our students for success in college and in life.

Consider the next four years, what experiences do you hope your student will encounter? They will certainly grow taller, and the faces of youth will give way to those of adults, but what about the growth inside? As parents, our choice on where to send our students to high school is really about what type of person we hope they become; it is a serious decision and one that matters.

At Prep we are so serious about our work we even have a document "The Grad at Grad" which states our objectives. The prep graduate is Open to Growth, Intellectually Competent, Religious, Loving, and Committed to Justice. We encourage you to look at this document and consider again, what type of person are you hoping your child becomes?

Our Prep alumni are evidence that our product is something exceptional, and that high school matters. We hope that you will choose to join us in educating your student, and that together we can make great things happen.

Thanks for your interest in Tri-Cities Prep.

In His service,

Arlene M. Jones
Principal
